EARTH DAY

PATHWAYS TO NEW DISCOVERIES

Earth science is about decoding our planet's mysteries. From space, the air, and on the ground, we track changes in our atmosphere, water, and land that help us to understand how Earth is changing and why.

Our 2022 Earth Day poster represents how Earth's systems are connected, and features QR codes that link to NASA web pages for more information, videos, activities, and other online resources.

Artemis
Follow NASA back to the Moon
https://www.nasa.gov/specials/artemis

Landsat 9
Explore 50 years of eyes on our changing planet
https://www.nasa.gov/specials/landsat

Climate Time Machine
Check out how some of Earth's key climate indicators are changing over time
https://climate.nasa.gov/interactives/climate-time-machine

Climate Quizzes
Test how much do you know about our planet and its systems
https://climate.nasa.gov/climate_resource_center/interactives/quizzes

Images of Change
Compare before-and-after images of natural and human-caused change
https://climate.nasa.gov/images-of-change

Eyes on Earth
Track satellites and see near-real time readings of Earth's vital signs
https://eyes.nasa.gov/apps/earth

Benefits from Space
See how NASA space technology is adapted for use on Earth
https://spinoff.nasa.gov

Snack Time with NASA
Explore the science behind the food on your plate
https://go.nasa.gov/3uSA8KW

Rising Tides
Learn more about sea level rise
https://sealevel.nasa.gov/resources/103/video-rising-tides-understanding-sea-level-rise

Benefits on Earth
Read about how NASA's observations from space help life on our home planet
https://www.nasa.gov/content/benefits-on-earth

NASA Earth Day
Meet NASA "Earthlings" and see the Earth Day 2022 activities
www.nasa.gov/earthday

GLOBE Observer
Participate in NASA Earth science observations with this mobile app
https://observer.globe.gov

Earth from Afar
Appreciate the beauty of Earth as seen from space
https://earthobservatory.nasa.gov/collection/1658/earth-from-afar

Earth Science
Follow NASA Science on Social Media
https://science.nasa.gov/get-involved/follow-us

Live views from Space
Watch Earth live from the International Space Station
https://www.youtube.com/watch?v=86YLFOog4GM

NASA Aeronautics
Find out how NASA is leading the way in research for sustainable aviation
