EARTH DAY
PATHWAYS TO NEW DISCOVERIES

Earth science is about decoding our planet’s mysteries. From space, the air, and on the ground, we track changes in our atmosphere, water, and land that help us to understand how Earth is changing and why.

Our 2022 Earth Day poster represents how Earth’s systems are connected, and features QR codes that link to NASA web pages for more information, videos, activities, and other online resources.

Climate Time Machine
Check out how some of Earth’s key climate indicators are changing over time
https://climate.nasa.gov/interactives/climate-time-machine

Climate Quizzes
Test how much do you know about our planet and its systems?
https://climate.nasa.gov/interactive-resource-center/quiz

Images of Change
Compare past and current images of both natural and human-caused change
https://climate.nasa.gov/images-of-change

Eyes on Earth
Track satellites and see near-real time readings of Earth’s vital signs
https://eyes.nasa.gov/apps/earth

Snack Time with NASA
Explore the science behind the food on your plate
https://go.nasa.gov/2dAWKMW

Benefits on Earth
Read about how NASA’s observations of space help life on our home planet
https://www.nasa.gov/content/benefits-on-earth

GLOBE Observer
Participate in NASA’s Earth science observations with this mobile app
https://observers.globe.gov

Earth from Afar
Appreciate the beauty of Earth as seen from space
https://earthobservatory.nasa.gov/collection/19560/Earth-from-afar

Live views from Space
Watch Earth live from the International Space Station
https://en.jsc.nasa.gov/SISS/HRSEV

Benefits from Space
 Explore how NASA space technology is adapted for use on Earth
https://chipsnr.nasa.gov

Rising Tides
Learn more about sea level rise
https://sealevel.nasa.gov/resources/10-videos

NASA Earth Day
Meet NASA “Earthlings” and see the Earth Day 2022 activities
www.nasa.gov/earthday

NASA Aeronautics
Find out how NASA’s research is driving the future of aviation
https://www.youtube.com/watch?v=SUqM9U6PZUE

Earth Science
