Engaging Learners with Authentic Data:
Summer Astrophoto Challenges

NASA’s Universe of Learning Team
June-July 2019
Learners use real astronomical data and tools from the MicroObservatory Robotic Telescope Network and NASA missions to create their own beautiful images of the iconic Whirlpool Galaxy. For more info: [https://www.universe-of-learning.org/nasa-astrophoto](https://www.universe-of-learning.org/nasa-astrophoto)

- Learners engaged through NASA SMD SciAct partners/networks
- Over 350 submissions
- Evaluation documents gains in interest and knowledge, and engagement in scientific practices
