NIA Collaborates with Virginia Association of Science Teachers for Teacher Professional Development Workshop

- On December 7, 2019, Joan-Harper Neely and Betsy McAllister of NIA-CISE, in partnership with the Virginia Association of Science Teachers (VAST - Region 2), hosted a workshop for 24 teachers to implement the professional development “Better Together: Connecting Educators with Engaging Resources.”

- 2 NASA eClips™ resources were highlighted:
  - *Real World: Aerodynamic Balloon Challenge* investigates how different forces affect motion in a classroom setting
  - *Guide Lite Testing…1, 2, 3…Testing: Nondestructive Evaluation* helps students understand real-world applications of light

- Elizabeth Joyner, Education Specialist with NASA Science Directorate, presented ways to integrate data in the classroom with My NASA Data resources.

- Teachers learned about the National Geographic Geo-Inquiry process, receiving Phase I certification, and participated in a Minute to Win It STEM Challenge.
