

# Government Performance and Results Act/ Modernization Act (GPRAMA) Annual Performance Report Process

- There are three Annual Performance Indicators (APIs) in NASA's Annual Performance Plan against which the subcommittee is asked to assess progress:
  - API AS-17-1 Demonstrate planned progress in probing the origin and destiny of the universe, including the nature of black holes, dark energy, dark matter, and gravity.
  - API AS-17-2 Demonstrate planned progress in exploring the origin and evolution of the galaxies, stars, and planets that make up the universe.
  - API AS-17-5 Demonstrate planned progress in discovering and studying planets around other stars and exploring whether they could harbor life.

# GPRAMA Rating Definitions

<b>Code</b>	<b>Guidelines for Science Ratings</b>
<b>GREEN</b>	Expectations for the research program fully met in context of resources invested.
<b>YELLOW</b>	Some notable or significant shortfalls, but some worthy scientific advancements achieved.
<b>RED</b>	Major disappointments or shortfalls in scientific outcomes, uncompensated by other unusually positive results.
