

Astrophysics Advisory Committee (APAC) meeting change

In accordance with the Federal Advisory Committee Act, the National Aeronautics and Space Administration (NASA) announces that the planned meeting on June 29-30, 2021, of the Astrophysics Advisory Committee is cancelled. The cancellation of this meeting is due to NASA administrative priorities.

In lieu of the meeting of the Astrophysics Advisory Committee, the NASA Astrophysics Division will conduct a public symposium using the agenda of the cancelled Astrophysics Advisory Committee meeting. A panel of experts will ask questions of the speakers at this public symposium. This form of meeting is sometimes referred to as a Meeting of Experts.

The agenda for the public symposium, including the remote connection information for this virtual meeting, may be found on the homepage of the Astrophysics Advisory Committee at <https://science.nasa.gov/researchers/nac/science-advisory-committees/apac>.

The public may submit and upvote comments/questions ahead of the meeting through the website <https://arc.cnf.io/sessions/qgpt#!/dashboard>.
