

# NASA Scientist Takes Students & Educators Across 30 States on a "Journey to Mars"

- "Journey to Mars" Webinar facilitated by NASA Astromaterials at the Johnson Space Center on April 12 & 24, 2018 enabled students & educators to connect and interact with scientist Doug Ming.
  - Live Webinar Reach: ~1688 Students, ~136 Adults
  - Archive Reach: 2265+ Students, 271+ Adults
  - Participants from 30 states and Mexico

Thank you to @Astromaterials and @NASA\_Johnson for going above and beyond! My students loved the webinar with Dr. Ming #Mars

Translate from Spanish

- "I really appreciate how he encourages students to continue education because they will be the generation to execute these plans. He gives them some things to think about!"

- "Thanks you for this opportunity to Public Schools (usually from poor/small towns) in Tlaxcala Mexico & other states. Our Academy is young & your support is important for us to enface new students to be part of Journey."
- "My students LOVED interacting with Dr. Ming. He provided information on a level they were able to understand. He was very eager to answer questions and inspire the kids."
