NASA Connects with Interpreters

National Association of Interpretation Annual Conference

November 13 – 14, 2019 | Denver, Colorado

- Outreach staff from NASA GSFC Earth, Heliophysics, Planetary, and Astrophysics maintained a feverish pace at the well-attended NASA/Earth to Sky/NSSEC booth.
- Approximately 900 informal educators, interpreters, and communicators from around the country working in federal, state, and local agencies, zoos, aquaria, botanical gardens, and other NGOs attended the conference.
- The dynamic interactions with conference attendees focused on sharing resources and opportunities, and encouraging the integration of NASA science into their outreach efforts.
- Participants from NASA included: Anita Davis, Geneviève de Messières, Jenna Giddens; John Morris, Ruth Paglierani, Kristen Weaver, Heather Mortimer, Andrea Jones, Sarah Eyermann, Sara Mitchell, and Carolyn Ng.
- For more information see <https://earthtosky.org>
